

Andrew Katsewich

Web & Mobile Developer | Vilnius, Lithuania

▪ andrew.katsewich@gmail.com ▪ [LinkedIn](#) ▪ [GitHub](#)

I am a software engineer with 8 years of commercial experience specializing in development using React, React Native, and Next.js. Throughout my career, I contributed to more than 15 commercial projects, both as a part of a team and the ones I led as a solo developer.

Experienced in diverse web projects, I deliver effective frontend solutions with a strong focus on product development and the end user.

WORK EXPERIENCE

Coherent Solutions

Frontend Web Developer

Sep 2025 - Present

- Refactored a web app and a browser extension to new API schema and mobile-first design. Refactored a big chunk of code to better fit modern standards, be more accessible and reusable for a tax management platform;
- Implemented a major feature in the investment process of the platform. Contributed to finishing multiple sprints on time by completing other necessary features for a real estate investment platform.

EPAM

Frontend Web Developer

Jan 2025 - Aug 2025

- Completed full migration to a new setup of 2 websites for a big enterprise client's brands using Next.js;
- Set a standard and made a guide on how to more efficiently set up and use some dev tools.

CreativeIT

Frontend Web Developer

Sep 2021 - Nov 2024

- Utilized React and Next.js on 8 projects;
- Built an MVP of a blockchain project in a month and used various optimization tools (Next.js' SSG, Lazy Loading, caching) later during support;
- Refactored, polished, and conducted performance optimization for a middle-sized project, reducing bundle size by 40%, improving UX, and code quality. Added various major features and pages to it;
- Maintained and implemented a better tech stack for a DEX Trading kit and its introduction static website, adding new features and improving performance;
- Developed a 3D animation preview component with a focus on UX for multiple input devices;
- Developed a service to pre-render animation files into .webm videos using Puppeteer;
- Built a multistep app for purchasing products with lots of customization options for vendors, authentication, internationalization, and multiple payment providers;
- Built an admin panel for a Healthcare project with various forms and settings, a rich-text editor, and a patient upload workflow.

Additionally:

- Mentored a less experienced developer to speed up the onboarding process;
- Conducted a dozen of technical interviews;
- Led calls with clients as a senior technical specialist to provide estimations and explain technical solutions.

Totle

Frontend Web Developer

May 2019 - Jun 2020

Totle is a decentralized exchanges aggregator that lets you swap tokens at best prices available. It was integrated later as one of the routes for Metamask.

- Created a new lightweight web app that handled API calls and Web3 wallets interactions;
- Integrated our back-end service with various wallets (i.e. MyEtherWallet);
- Created backoffice-related services: a web app to manage back-end data (React, Typescript, GraphQL), notifications and logging services (Node.js, Typescript);

EDUCATION

Belarusian State Technological University

Bachelor's degree, Informational Systems and Technologies

2015 - 2019

Gained fundamental knowledge of relational databases (Oracle, Microsoft SQL), OOP languages (C++, C#, Java), computer networks, distributed systems, and information security.

COURSES

Emil Kowalski - Animations on the Web (2026)

Udemy - The Complete Prompt Engineering for AI Bootcamp (2025)

Udemy - React 18 Tutorial and Projects Course (2023)

Udemy - Microfrontends with React: A Complete Developer's Guide

SKILLS

Front-end: React, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, DaisyUI, Styled-components, Zustand, Redux, GraphQL, SolidJS, Astro

DevOps tools: Docker, AWS (EC2, RDS, API Gateway, Lambda, DynamoDB, SQS)

Back-end: Convex, Node.js, Express, Firebase

Databases: PostgreSQL, MySQL

Special Features: Tiptap, React Three Fiber, Wagmi, Viem (Ethers, Web3.js)

LANGUAGES

English (C1), Japanese (N1), Russian (Native), Belarusian (Native)
